CHARLOTTE, N. C.

Located in Myers Park, the most beautiful and best laid out residential suburb in the United States; on a magnificent plat of 50 acres of elevated, undulating land, overlooking the city of Charlotte, two miles in the country, but on paved boulevard and street car line to the city.

Ideal climate; midway between New York and Florida; entire equipment new, modern, fireproof, steam heat, electric lights, hot and cold water from city water works in each room, toilets and shower baths on each floor.

The Most Complete and Best Equipped New Barracks in the South

Six teachers with degrees from the best colleges and universities. Limited to 250 cadets who dine with the teachers and ladies of the Principal's family. The academy has had a successful career of 67 years with a history that is a guarantee that it is not an experiment. The largest patronage from the best people of our home State, who know us best, is its greatest endorsement. Charges $400.00 per year.

PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively very few only a very short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not have a City Directory. Just how up-to-date or complete the Directory is, depends in most cases upon the support accorded to the publishers, provided, of course, that they know their business.

It is an old saying that you can judge a man by the clothes he wears—whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of some one. Just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to the standard, and if you find it to be well patronized, you need not be told that it belongs to a live community—the fact is self-evident.

It is therefore with pleasure that we present Vol. XX of the Charlotte, N. C., City Directory, for the fact is self-evident, that we are doing business in a live community.

NUMERICAL TELEPHONE DIRECTORY
OF CHARLOTTE, N. C.

Note—This is a New Department, which we have added to the Charlotte Directory and which we think will be found very useful to our patrons. A business man on the return to his office is often requested to call such and such a number, without having the slightest idea to whom he is to speak. Before calling your number, a glance at the following list oftentimes will prove to be a source of great relief.—Publrs.

Biddle University

CHARLOTTE, N. C.

Biddle University, founded by the Presbyterian Church in the U. S. A., has four departments, namely: Normal and Preparatory, Arts and Sciences, Theological and Industrial.

The Preparatory and Collegiate Departments have each two courses of study, Classical and Scientific; the Scientific omitting the Greek and Latin Classics.

The Normal and Preparatory School is designed to prepare the student for teaching and for business life, or for entering the School of Arts and Sciences.

All students in the Preparatory course are required to take some trade and report every day for work in the Industrial School. College students may also take trades. At present several trades are being taught—Carpentry, Printing, Bricklaying, Plastering, Shoemaking, Blacksmithing and Broommaking. One fourth of the time in recitation hours is devoted to industrial training.

The Collegiate Department consists of four years, the Theological three. The course of study prescribed in the Theological Department is liberal and practical. Besides the ordinary English subjects of the Theological Seminary, students who have taken a College course, or its equivalent, pursue exegetical study of the Greek and Hebrew Scriptures in the Junior and Middle years. When the previous training of students has been partial and his years are mature a shorter and purely English course has been provided.

The school year begins the third Wednesday in September, and closes the first Wednesday of June.

For information or catalogue, write President H. L. McCrorey.

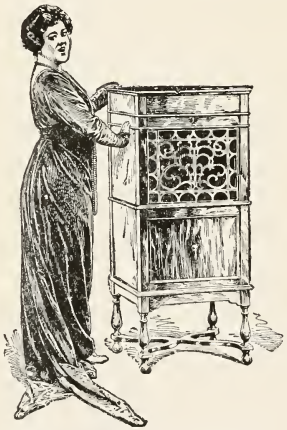
Light—carry in one hand.
Heavy enough for hardest work.

We can prove it.

New York for the Opera Season—?

Now at Home With

The New Edison.



Frieda Hempel of the Metropolitan Opera, singing in direct comparison with her own voice on the New Edison

For this marvelous instrument brings Grand Opera into your home. So far as **hearing** the great artists of today is concerned they themselves can give you no more than

The New Edison

"The Phonograph with a Soul"

This invention Re-Creates the singer's voice with such perfection that no human ear can distinguish artist from instrument. The Edison tone tests in which the singers have sung in direct comparison with the New Edison have proved this to more than 2,000,000 listeners.

BE CONVINCED

Phone 3121

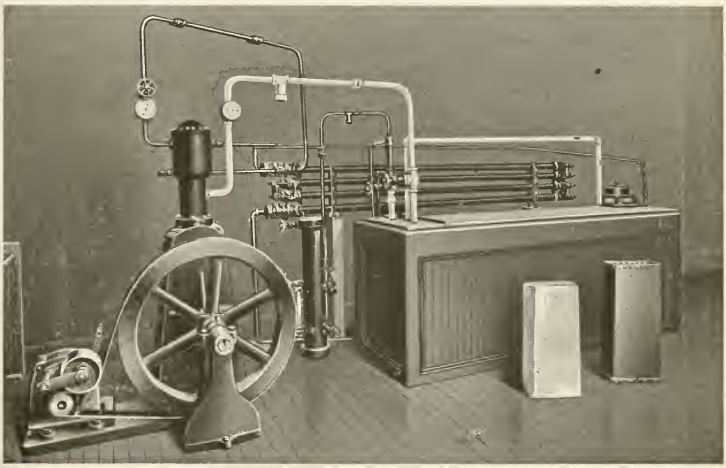
Harmon Engineering Co.

INCORPORATED

Manufacturers of Improved Ice-Making and Refrigerating Machinery, suitable for Hotels, Meat Markets, Cafes, Office Buildings, Factories, Small Towns, or any place where Ice or Cold Storage is needed. Mills and Factories with cheap power, can manufacture one ton of ice per day at practically no cost.



A Small Ice-Making Plant

These machines are made of the best material throughout, and the workmanship is unexcelled. The construction is very simple and the few working parts are self-oiling.

Corliss Engines Repaired, Reconstructed and made to operate on most economical basis.

We go to your plant, inspect its needs and make repairs on the grounds. We have portable tools for all work.

Timely repairs of leaking valves and worn pistons is money saved.
